MITSUBISHI MOTORS

GLOBAL AFTER SALES OFFICE, MITSUBISHI MOTORS CORPORATION

PURPOSE : CORRECTION	ISSUE NO. : MSB-15EX00-501	DATE : 2015-10-08
SUBJECT : Omission in the initialization procedure for learning value in diesel particulate filter system		<DESTINATION/MODEL> (EU/G.EXP) <M/Y> 12-15
GROUP : Gr:00(General)		As per attached sheet 1

1. Description :

Please refer to the attached document for the correction of the error in writing existing in the applicable service manual.

2. Affected service manuals :

Please refer to the attached document (Attached sheet 1)

3. About the details :

Please refer to the attached document (Attached sheet 2)

Attached sheet 1

INITIALISATION PROCEDURE FOR LEARNING VALUE IN DIESEL PARTICULATE FILTER (DPF) SYSTEM <Euro5b>

PURPOSE

The engine-ECU stores the change of the DPF system caused by the various driving conditions as the learning value and uses it for assumption of the PM accumulated amount or for the acceptance/rejection criteria of the DPF system. For this reason, the learning value is necessary to be initialised when the parts related to the DPF system are replaced.

INITIALISATION PROCEDURE

1. After the ignition switch is in "LOCK" (OFF) position, connect M.U.T.-III with the diagnosis connector.
2. Ignition switch is in "ON" position.
3. Select the "SPECIAL FUNCTION" from the "FUNCTION MENU" on the M.U.T.-III.
4. Select the INITIALIZATION from the SPECIAL FUNCTION.
5. Select the item on the screen of the initialisation for learning, and perform the initialisation.

Service	Item No.	Item
At replacing DPF	40	DPF exchange service
At replacing exhaust differential pressure sensor	41	DPF differential pressure sensor exchange service
At replacing catalytic converter	42	DPF system malfunction service
<Added> At performing the troubleshooting for diagnosis code No. P252F: Engine oil level malfunction	43	Engine oil exchange service
